

Coke demand in the world on a high level
– in the past and in the future!

Many projects for extension and replacement
of coking plants

Already in 2003, German medium sized
companies active in coking technologies took
the decision for a collaboration

The competences of these companies cover
all operational areas of coking plants

Process design – engineering – fabrication –
procurement – construction – commissioning
start up – operation assistance

Targets:

Handling of turn key projects

Know-how of operating companies´
manpower

Extensive experience in designing,
engineering and manufacturing of various
facilities in coking plants

Please contact the group or any member
company directly!

Coal preparation / Coke handling

AUMUND

- Coal/Coke Conveying and Extraction
- Hot Coke Handling

Küttner

- ♦ Coke Screening
- ♦ Coal Mixing Bed
- ♦ Coal/Coke Transportation

RSI

- ♦ Steel Structure Construction
- ♦ Conveying Systems

Coke Oven Service Machines

HuDe

- ♦ Machines for Stamping, Charging and Pushing
- ♦ Coke Transfer Car
- ♦ Charging Gas Transfer System

Coke Oven Batteries - Accessories

Beroa

- ♦ Refractories
- ♦ Erection and Maintenance of Refractories

Pleiger

- ♦ Hydraulic Systems
- ♦ Reversing and Stopper Cocks

Gas Treatment & By-product Plants

SPG Steiner

- ♦ Gas Treatment Plants
- ♦ By-Products Plants
- ♦ Desulphurisation
- ♦ Benzene Production

RSI

- ♦ Special Piping
- ♦ Steel Construction

Emission Control / Dedusting Systems

CFH

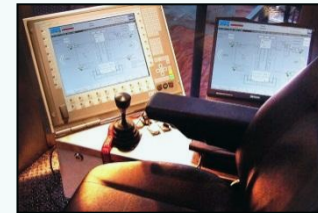

- ♦ Filter Systems
- ♦ Dry Dedusting
- ♦ Air Purification
- ♦ Piping Systems

HuDe

- ♦ Individual Dedusting for Service Machines
- ♦ Exhausting Facilities

Process Automation

HuDe

- ♦ Automation of Coke Oven Service Machines

Küttner

- ♦ Information Management
- ♦ Process Controlling
